

SDI Review Form 1.6

Journal Name:	British Journal of Applied Science & Technology
Manuscript Number:	Ms_BJAST_19284
Title of the Manuscript:	Gender Classification and Age Detection based on Human Facial Features Using Multi- Class SVM
Type of the Article	Original Research Article

General guideline for Peer Review process:

This journal's peer review policy states that **NO** manuscript should be rejected only on the basis of '**lack of Novelty**', provided the manuscript is scientifically robust and technically sound.

SDI Review Form 1.6

PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
<u>Compulsory</u> REVISION comments	(1) In 3.1, the title of the figure should be given. The text description which corresponds to the flowchart should be offered in brief. (2) The content of the abstract and conclusion should be more concise. (3) The title of the table is always put on the top of the whole table. (4) Authors use the image is of size 128*115. Are their conclusions, such as Accuracy, related to the image size? (5) In section 6, authors just list their experimental data. The corresponding experimental analyses are expected. (6) The number of the reference should be marked in the order of their appearance in this paper. (7) Authors have listed several similar references about the methods for the gender classification and age detection. The comparison between their method with these existed methods are expected.	(1) Briefly described the meaning of flowchart (2) Abstract and conclusion are now concise (3) The title of each table is placed on the top of the table (4) Accuracy at this size produces good results. (5) Experimental analysis are given in the corresponding table (6) The references in the text are in alphabetical order (7) We only discussed it
<u>Minor</u> REVISION comments		
<u>Optional/General</u> comments
