SDI Review Form 1.6

PART 1: Review Comments

	Reviewer's comment	Author's comment <i>(if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)</i>
<u>Compulsory</u> REVISION comments	Good and in an average position.	
<u>Minor</u> REVISION comments	Need to revise listing the reference as APA style.	Thanks but this is not the style recommended by the Journal. The IEEE style seem to catch the attention of the Editors.
<u>Optional/General</u> comments	Better to dig out the issues that raised in the paper.	Thanks, but I think such issues will require further research before any further elaboration. All discussions are based on the research only.
