SDI Review Form 1.6

PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
<u>Compulsory</u> REVISION comments	The manuscript is well written and useful to the bread maker. However, sentences were not formed properly at many places. The manuscript has to be thoroughly checked for language.	
<u>Minor</u> REVISION comments	Few examples , few badly composed sentences: Please modify: Line 98: (2005) but with slightly modification process conditions. Line 114: The titrimetrically method of Wurzburg 1964 as reported by Ayucitra (2012) was followed in Line 169-169: Ten millimetres (10mL) of distilled water was added to the sample and the volume was recorded. The cylinder was left to stand for 1h. Line 248: This could be attributed to decrease in gluten content as with portion is gradually substituted. Line 291: to the increase in amount of cassava four which line 311: The breads did not differ in their acceptability scores among the control sample, YW2 and samples: Q11 and 5V2.
