SDI Review Form 1.6

PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
<u>Compulsory</u> REVISION comments	Abstract: Include that the data was collected by surface EMG in the methods. Discussion: Even without references that indicate pain influence on EMG signals, the rest of the discussion is based on concepts and theories that have references to support them. Please insert references in this section.	
<u>Minor</u> REVISION comments		
<u>Optional/General</u> comments	Very interesting. Hope to see it published.
