

SDI Review Form 1.6

Journal Name:	<u>British Journal of Applied Science & Technology</u>
Manuscript Number:	2015_BJAST_18612
Title of the Manuscript:	Synthesis of novel imidazole derivatives based on camalexin scaffold and anti-fungal activity against rice blast
Type of the Article	Original Research Article

General guideline for Peer Review process:

This journal's peer review policy states that **NO** manuscript should be rejected only on the basis of '**lack of Novelty**', provided the manuscript is scientifically robust and technically sound.

SDI Review Form 1.6

PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
<u>Compulsory</u> REVISION comments	Authors reported the synthesis of new imidazole derivatives based on the camalexin (3-thiazol-2'-yl-indole) scaffold and indicate that, especially, the compound 2c is very active against rice blast pathogen <i>Magnaporthe oryzae</i> using in-vitro assays. Despite the importance of the data reported in this paper. The numerous English mistakes disturbing in lecture. Even the abstract is full of mistakes. So, I recommend the publication of this paper after a deep revision of the English by a native speaking-English person.	
<u>Minor</u> REVISION comments		
<u>Optional/General</u> comments
