SDI Review Form 1.6

PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
<u>Compulsory</u> REVISION comments		
<u>Minor</u> REVISION comments	The article is very interesting. Authors described as to how the beginning of the current warming in Middle Asia; studied about trends in atmospheric circulation forms on the basis of interannual changes of duration of synoptic processes in Middle Asia over the last 60 years. The Gap of work needs more descriptions. Authors are required to add / amend followings: ABSTRACT The abstract should be written describing the work background gap of work and its results validation not poitwise. INTRODUCTION References [2], [3] are again added after [1-4] in the text. It should to be placed in sequential order and duplicity of references should be avoided in the text.	
<u>Optional/General</u> comments	Article is well structured and considered to be good for publication after incorporating all above suggestions / minor revisions.
