Mr Tobias Peter Pwajok Choji,
Central Diagnostic Division (CDL),
National Veterinary Research Institute,
Vom.

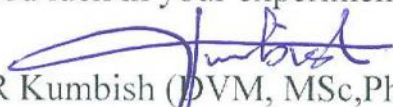

Sir,

RE: APPLICATION FOR THE RELEASE AND USE OF RABBITS FOR EXPERIMENT

Following your request on the above subject matter and after careful study of your experimental design, you have been granted the permission to carry out the experiment under the following conditions;

1. Animals will be released to you as requested after certifying their state of health by the Veterinarian on duty at the animal house.
2. The Veterinary Pathologist on duty at the Central diagnostic division during the period of your experiment will be responsible for your animal handling and sacrifice, according to the Standard Operating Procedure in the dissection room.
3. Organs harvested must be used according to your experimental design.
4. All tissue(s) remaining after the experiment should be handed over to the histology laboratory.
5. You are to buy your sample containers and submit to the dissection room at least 3 days to the day of animal sacrifice.

Good luck in your experiment.

P.R Kumbish (DVM, MSc, Ph.D)

Assistant Director /Head of Department

Central Diagnostic Division/Chairman, ethical committee, CDL,
