- This form has total 9 parts. Kindly note that you should use all the parts of this review form.

SDI Review Form 1.6

PART 2: Review Comments

	Reviewer's comment	Author's comment <i>(if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)</i>
<u>Compulsory</u> REVISION comments		
<u>Minor</u> REVISION comments		
<u>Optional/General</u> comments	The manuscript is poorly written. The author(s) do not explain such concept as fiscal decentralization, the relationship between life expectancy and fiscal decentralization, and so forth.	Fiscal decentralization encompasses the allocation of monetary features to local and regional government. Fiscal decentralization describes mainly two problems. The first is the distribution of outlay tasks and income sources between national, regional and local authorities. The second is the amount of discretion given to regional and local governments to find their expenditures and revenues. There is positive relationship between

		fiscal decentralization and life expectancy. As well as more expenditure would be done in health sector, there are better results gained. Actually, in Pakistan, there is a little bit amounts spent on health, if government spend more on `health, a productive and fruitful nation will produce. Literature review is expanded to some extent. Fiscal decentralization affect life expectancy positively. Decentralisation process involve fiscal.
