subject: Re: Request for submission revised paper version 2 manuscript no: 2012 BJEMT 2829

Dear Editor,

Thanks for your comments on our paper and for reviewers observations.

We clearly missed to add line numbers to the document, we have done it now so we are sending you again review form from first revision round (labeled as 1st revision) with our reply on every comment, and line and page number for all changes highlighted in yellow in the manuscript.

We also mistakenly sent a version without the change we promised to one reviewer regarding repetition of a definition, it has been done now, comment, line and page number of the change is in the form.

We have also review the references section, making sure they are all complete and strictly meet reference style.

To our understanding the manuscript follows the style template but if there is any format not correctly followed we would appreciate if you could indicate which one is, so we can amend it.

Pleas find attached:

Revised manuscript labeled as REVISED2

2 review forms from this 2nd round with our comments, labeled as 2nd revision

Review form from 1st round with comments and the line number (missing in 1st resubmission) of changes , labeled as 1st revision

We hope to have answered all comments, thanks in advance.

Regards

Xavier Sales, Ph.D.
