

REPORT

1. "In competitive world of today, every company has to be quality conscious." This is a very general and assertive statement," So to be competitive in the world, Pakistan has to grow its textile & apparel sector.". How can we make such an inference?
2. "Purpose of the study was to evaluate that to what extent, industry has adopted Total Quality Management practices." This is not a purpose statement. It just says, what is going to be done in the study. This is not a purpose.
3. "Total quality management (TQM) has....", "Total quality management (TQM) is one of the...". First letters capital, also when you use a term for the first time, show its abbreviation in parentheses.
4. A key element of any total quality strategy is the management of processes (Porter and Parker).
5. is conducted to ensure that only high quality quality pieces move to stitching units.
6. for each main setup they have DGM. Detailed hierarchy is shown.. What is DGM?
7. ...the ABC organization has strong infrastructure. ABC or Masood Textile Mills Ltd.
8. Organization chart should be revised.
9. You do not need to explain statistics terms so detailed.
10. Why did you put the sub title Data Collection under Results and Discussion title?
11. What does this paper add? The author/s should clarify how this paper contributes to knowledge.
12. The paper needs a very careful proof-reading as there are many typos and grammatical errors.
13. I have not seen the questionnaire used for this study in the file forwarded to me. To be able to comment on the findings of the paper more precisely, I need to see the questionnaire form.
14. The paper is not comprehensive in terms of explaining the methodology. Details on the sampling frame, the method of applying the questionnaires, etc. should be explained.
15. Text should be organized according to article writing systematic.
16. The title and the content is not compatible.
