PART 2: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
<u>Compulsory</u> REVISION comments	The sentences in lines 52-53 and 87 to 90 should be supported by studies/references in this respect. The section 3.2 on “motivations and goals” does not deal with this issue, as it discusses aspects like the valorisation of farm assets, the impacts of farm tourism on farm crops and activities, family involvement, and the economic impacts of farm tourism. As such, the title of this section should be changed. The average stay for Foreigners indicated in line 355 does not correspond to the information provided in Table 6 and should be corrected.	Lines 52 and 53 are supported by reference 4. Lines 87 to 90 are supported by reference 6 Section 3.2 deals with motivations of farmers. I do not totally understand the comment by the Reviewer. Farmers are motivated by valorisation of their assets, by the increased return to their processed crops, by more employment and better jobs for family members. If this is not “motivations and goals”, then what is a motivation? However, to avoid misunderstandings, I have changed into “farmers’ motivations”. The Reviewer is right. I have corrected my mistake.
<u>Minor</u> REVISION comments	There are some minor typos to correct.	Ok – I did my best and then the article was revised by a mother tongue
