

SDI FINAL EVALUATION FORM 1.1

PART 1:

Journal Name:	British Journal of Economics, Management & Trade
Manuscript Number:	2013_BJEMT_4423
Title of the Manuscript:	Empirical Analysis of the Causal Relationship between electricity consumption and economic Growth in Nigeria

PART 2:

FINAL EVALUATOR'S comments on revised paper (if any)	Authors' response to final evaluator's comments
I see that the paper has been improved in many ways. However, some error still have not been corrected, i.e.: 1. In the text there is still "granger" in some places. It is a surname of Nobel prize winner! 2. "The Augmented Dickey Fuller regression $\Delta y_t = \pi y_{t-1} + u_t$" is still an incorrect sentence. In general, the ADF uses regression with more than one lag. 3. "Overview of the State of Affairs of the Nigerian electricity sector". I would rather say "Overview of the Nigerian electricity sector" Therefore, I once again recommend to revise and resubmit the paper. Minor revision required.	All the corrections as regard the author's comment have been made 1. The granger has been replaced with Granger 2. $\Delta Y_t = a_0 + \gamma Y_{t-1} + \sum_{i=1}^k \beta_i \Delta Y_{t-i} + U_t$. This replace the initial ADF regression 3. Corrected as suggested
