PART 2: Review Comments

	Reviewer's comment	Author's comment <i>(if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)</i>
<u>Compulsory</u> REVISION comments	None	None
<u>Minor</u> REVISION comments	None	None
<u>Optional/General</u> comments	The article is well written and grounded on the relevant conceptual framework. The results are presented logically and are in line with the objectives of the study. There are no ethical issues in the article that were supposed to have been cleared. It was a study with minimal risks ethical issues relate to informed consent and of course institutional permission.	Thanks for the comments. For ethical issues, it was mentioned in the second paragraph of Page e (Lines 71 to 78) as well as in the Figure 1 while the main ethical consideration is based on the cognitive moral development from Solymossy & Masters, 2002.
