SDI Review Form 1.6

PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
<u>Compulsory</u> REVISION comments	1. The text needs some careful linguistic revision at a few places, such as line2 ,line 6 in section 1,etc. 2. The topic seems too simply. MPT is a classical theory in finance. It has been a part in the textbook. Some contents can be omitted, such as section 3. 3. Calculated weight has been shown in section 4. In fact, Mean variance-Efficient Frontier can be got in the portfolio management.	Reply: I appreciate the reviewer comment . We modified the revised paper which are shown in yellow marked please check these. 2. I am thankful to the reviewer comment. In the revised version of the paper, I omitted some contents in the section 3. Please check these. 3. In the revised version of the paper. I have calculated the efficient frontier, which has shown in Fig. 4 (page # 11) and description is given in page # 11 (yellow mark). Please check these.
<u>Minor</u> REVISION comments	The literature review can be improved.	Reply: I appreciate the reviewer comment. I modified the paper which has been shown by the yellow mark. Please check these.
<u>Optional/General</u> comments	The paper reads as a part of the textbook. Amendment can be made for both paper contents and methods.	Reply: I am thankful to the reviewer comment. In this paper I used a general model. But I used some references which are currently published. I modified the contents through the references and an unique research on the Bangladesh share market. There are no research until now about the stock market for the Bangladesh.
