SDI Review Form 1.6

<u>Compulsory</u> REVISION comments	The paper presents assumption that are not verified in the text. the theoretical review, although well done, turns out to be incomplete and outdates (the last paper cited is published in 2011). Data demonstrating the assumptions made are few, need further study. whole, the research seems very weak and unstructured. Check the English Language with a native English because it is because it turns out to be incomprehensible in some paragraphs. Overall the work is weak and should be strengthened.	The paper has been modified to present a more detailed and verifiable discuss. The objective of the modification was also to improve the structure and create room for presenting verifiable empirical data for some arguments. There are other sources cited that are more recent Additional review has been done to strengthen the language.
