Subject: Urgent request for clarification for manuscript number 2013/BJEMT/3751

We are in the way of completion of Peer review formalities for your manuscript 2013/BJEMT/3751. But one of our reviewer complain that "

There are 2 articles so far written based on similar research by the same authors. First article title "Refining and Validating a Family Communication Measure Using Exploratory and Confirmatory Factor Analysis" published on International Journal of Academic Research in Accounting, Finance and Management Sciences Jan 2013. Although the article was intended to discuss instrument (questionnaire) validation, but using CFA means model validation. They didn't discuss the model indeed but they did validate the model. Therefore particular article is simply discussion of previous article. Use similarity checker you may find more than 90% similarity. Almost there's no new on particular article compare to published article on "IJAR AFMS" ".

As per our strict quality control policy we cannot consider any published paper for our journals (Our General editorial Policy states: Submission of a manuscript clearly indicates that: the study has not been published (partly or as a whole) before or is not under consideration for publication elsewhere (except as an abstract or as part of a published lecture or academic thesis)) (Link: <http://www.sciencedomain.org/page.php?id=sdi-general-editorial-policy>).

Therefore, you are kindly requested to clarify this case at the earliest. Kindly inform us, if you have made any mistake during manuscript submission or not. If you have published this paper as only abstract in any conference, you need to adequately restructure the paper before submitting here to avoid any possible copyright or legal conflict.

If these papers (attached) are not same and there is no question of plagiarism. you need to certify the same in writing. After your certification further peer review formalities will be started
