SDI Review Form 1.6

PART 1: Review Comments

	Reviewer's comment	Author's comment <i>(if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)</i>
<u>Compulsory</u> REVISION comments		
<u>Minor</u> REVISION comments		
<u>Optional/General</u> comments	Line 120 need more explanation and line 170 to conclusions need to show limits of factors affect because of regardless of different countries environment and economic system beside factors are Sample deliberate chosen by author from different years. Conclusions also show recommendation ,see line 272 Shows other studies related to study and try to solve problems of developing countries Shows some risks facing developing countries in order to direct economics to face this risk as result to economic weakness affection.	The author did not deliberately choose the sample from different years. This depends on the availability of the data for different countries. This was done in the literature review section. Author fails to understand what this comment is about.
