PART 1: Review Comments

	Reviewer's comment	Author's comment <i>(if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)</i>
<u>Compulsory</u> REVISION comments		
<u>Minor</u> REVISION comments		
<u>Optional/General</u> comments	This is an interesting and well-written paper. It shows the simulations of saving-Investment gap and economic growth in five selected African countries by adopting a Ramsey model with general equilibrium framework. It finds positive impacts of reductions in saving-investment gap on output expansion. It also provides practical policy suggestions to reduce the SI gap.	Thank you. No additional comment.
