SDI Review Form 1.6

PART 1: Review Comments

	Reviewer's comment	Author's comment <i>(if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)</i>
<u>Compulsory</u> REVISION comments	The idea to analysis the low economic growth in the developing world is of great interest to the researchers and finding out a series of measures which addresses the underline problem is timely valued. The paper has presented and discussed the results without explaining the methodology which has been used in the study. Thus, it is recommended to insert a section to explain methodology used. Interpretation of the result should be further elaborative and specific.	This article analyzes the determinants of economic growth in the WAEMU. We emphasize the importance of competitiveness to support sectors of economic activity. We show the importance of price, exchange rate, exports, governance and economic patriotism for economic growth. Reviewer's remarks are taken into account. The methodology are made.
<u>Minor</u> REVISION comments	Paper is not well structured. It is recommended to follow the guidelines and rearrange the sequence number in a rational way (Ex. 1. Introduction, 2. Literature or if any 3. Methodology, 4. Results, 4.1. Analysis of Foreign trade and so on) Reference list at end requires completeness Typological errors need to be addressed	The work is restructured.
<u>Optional/General</u> comments	Use of advanced statistical tools in the analysis increases the trustworthiness of the findings	Some data is updated.
