| <b><u>Compulsory</u></b> REVISION comments |                                                                                                                                                                                                                                                                                                                   |                                                                                                                                                                                             |
| <b><u>Minor</u></b> REVISION comments      |                                                                                                                                                                                                                                                                                                                   |                                                                                                                                                                                             |
| <b><u>Optional/General</u></b> comments    | The author has selected a good topic in analysing the exchange rate and the economic growth of Bangladesh by using some of the best econometric techniques in analysing the data. The paper is well organized and good for publication however he/she should consider revising for some minor grammatical errors. | O.k. I will go through the paper to address the issue raise by reviewer.                                                                                                                    |
