SDI Review Form 1.6

PART 1: Review Comments

	Reviewer's comment	Author's comment <i>(if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)</i>
<u>Compulsory</u> REVISION comments		
<u>Minor</u> REVISION comments	The addition of plots with the data sets used in the analysis is recommended. The results from the stationarity tests of the variables are suggested to be added in the paper.	Additional plots and table added to explain the data. The result of the stationary tests has been added as recommended.
<u>Optional/General</u> comments	This paper addresses the problem of the growth impact of the federation allocation shares and governments' internally generated revenue in Nigeria. A comprehensive literature review is included while the statistical growth evidence is assessed based on a simple regression model. I recommend the acceptance of the paper after minor revision.	Additional literature added.
