PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Compulsory REVISION comments	I suggest to write the Eviews captured contents by yourself.	We agree to the suggestion. We have edited most of the captured tables and made them ourselves. Some of the captured Eviews tables have been transferred to Appendix .

SDI Review Form 1.6

<u>Minor</u> REVISION comments	Introductions for unitroot tests, normality test and Garch models seem to be unnecessary.	We have not removed the introductory notes to these tests because we feel that they are useful to readers who may not be conversant with the details of these tests but are interested in following the contents of the paper. Inclusion of these notes does no harm on the paper.
<u>Optional/General</u> comments
