PART 2:

FINAL EVALUATOR'S comments on revised paper (if any)	Authors' response to final evaluator's comments
In revised paper file, all formulas were taken by anywhere as a photoshop. At that time, Author should write these equations by equation editor via MS OFFICE. Author should check this manuscript below: Şahinli, M.A. 2013. Comparative advantage of agriculture sector between Turkey and European Union, African Journal of Agricultural Research Vol. 8(10), pp. 884-895, 21 March 2013, DOI: 10.5897/AJAR12.2001 ISSN 1991-637X©2013.	I appreciate the evaluator's comment. However, the formulas in the revised paper were not taken from elsewhere as claimed by the Evaluator but were typed in with Equation editor (MS Office 2010). They appear as images whenever they are saved in compatible mode (thus earlier versions). I tried saving in MS Word version 2007 (compatibility) and realized they appeared as images. That is why I submitted the revised paper in the 2010 version where the equations could be seen clearly as they were typed in.
