Subject: Re: Request for final decision for manuscript number 2013_BJEMT_7106

I had carefully examined the entire information contained, the original and revised papers, the communications between the authors and the reviewers. I agree to Accept this paper, provided that the author (or the editing office) will perform the following:

1. Format of the entire manuscript should be re-organized. Indent, space, citation, etc... (the authors should pay respect to the authors' guidelines, or we shall instruct the potential contributors a easy-to-follow template in a CFP)
2. Format of reference.
3. Delete one of the two tables1?
4. I would suggest the authors to add a small paragraph (or to create a new section) as limitation of this research. The authors can use this to explain why some of the comments from the reviewers were not possible to perform at this time; they can also use this to explain a little bit more on what they would express to justify their contribution to the academic.

Editor's Details:

Frank F. C. Pan

Healthcare Business Administration, Healthcity Research Center, Taiwan
