SDI Review Form 1.6

PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Compulsory REVISION comments	No	
Minor REVISION comments	No	
Optional/General comments	This is a well written paper to shows the demand of optimal debt to a debtor is based on its expectation of credit, requested in terms of interest rate and repayment periods, offered by the creditor under a company increases capital 's financial condition . It proposes a model to derive the optimal rent and the number of rents for rental investment operation by a company. The model is appropriate and the derivations of equations are logically and rigidly correct. The overall written structure is fine with proper literature review. It is a good paper, if it can add some implications for this model and result will make this paper even better.
