SDI Review Form 1.6

PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
<u>Compulsory</u> REVISION comments	This is an empirical paper, that develops an econometric study with the goal of investigating the impact of privatizations on fiscal policy and the subsequent effects on macro aggregates. The study is developed for a specific country, Nigeria. The paper is well written, well motivated and well structured. The econometric study is carefully designed and executed and the conclusions are meaningful.	
<u>Minor</u> REVISION comments	- The paper requires a careful final look – there are various typos and grammatical errors that should be emended. - In page 2, line 74, the author must explain what is a SAP policy. - The last sentence of the conclusion should be rephrased, given the scientific nature of the study. It would be better to write something as 'Therefore, we conclude, given the obtain results, that the intensification of privatization of public enterprises would make the country better off.'	
<u>Optional/General</u> comments	---
