SDI Review Form 1.6

PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
<u>Compulsory</u> REVISION comments	Topic selection is novel.Very good data analysis and literature review.statistical interpretation is excellent.	Thanks for you comment
<u>Minor</u> REVISION comments	I feel that major emphasis is given only on derivates and the analytical part.It is mentioned very less about how corporate governance can have an impact on derivative usage. Do give more detal on the same.	Much of this was highlighted in the literature review section
<u>Optional/General</u> comments	Good research. More explanation of word derivative should be there to make it easy for the layman to understand.	Thanks for your comment. Will add a little more explanation of the word derivative.
