<u>Minor</u> REVISION comments	The subject of this paper is practical, but it requires minor revision as follows: (1) P.7 line 260--- 4. METHOD→ 4. METHODOLOGY (2) This paper needs to add “Literature Review” section and the literature cited in the text must be put on the “references” part. (3) The authors are also advised to concisely describe the research limitation in the “Conclusion and Suggestions” section. Besides, the references need to be formatted and checked again in accordance with the Journal’s format (I remind).	Now the paper has a section “Methodology”. It also have a section “Literature Review”. More than this, all the publications cited in the text are now put on the “References”. The “Conclusion and Suggestions” section now brings a concise discussion about the findings and the limitations of the procedures. Thank you for these comments.
