SDI Review Form 1.6

PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Compulsory REVISION comments		
Minor REVISION comments	1- The title is too long ,title suggestion ,Key Determinants Of Inflation in Ghana, is better. 2- Linguistic revision of the Abstract be important. 3-check the numbers in line 28. 4- Figure 1 needs to be more explanation and clarification on how Reciprocal influence between variables and re-examination of the mutual influence between variables. for Example the relation from exchange rate to pass- through. See line 102. 5-In line(277) it is best formulation of the model by letters, not symbols. 6- Repeat must delete the lines (329-330-331-332-333). 7-check the word (unto)in line 356. 8- Repeat must delete the lines (398-399-400-401). 9- check the numbers in line449.	The authors agree with the reviewers' comments and observations. We have subsequently made the suggested revisions to the manuscript. The revised parts are highlighted in yellow in the manuscript. Below are the authors' specific feedback on the reviewer's comments/observations: 1- The title has been changed to Key Determinants of Inflation in Ghana as suggested. 2- The linguistic construct of the abstract has also been revised 3- The numbers have been checked and cited appropriately. 4- Figure 1 has been redrawn to depict clearly any mutual influence between the variables. 5- The model has been reformulated with letters. 6- Repeated lines have been deleted. 7- The word 'onto' has been changed to 'to' 8- Repeated lines have been deleted. 9- The numbers have been checked and reconciled
Optional/General comments
