SDI Review Form 1.6

PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Compulsory REVISION comments	1) Please check grammar mistake as: Accelerateddevelopment, globalfinancial, manufacturingsector, capacityutilization...etc	We thank the reviewer for this observation. The mix-up may have been due to the process of downloading the Microsoft version of the paper. They have all been corrected as appropriate in the paper.
Minor REVISION comments	1) Please re arrange the literature by providing the incident of benefit of globalization from word wide perspective, especially from other developing countries. Then narrow down to African study before conclude any gaps. 2) Provide evidence or statistic that show Nigerian economy drive by manufacturing, agriculture and trade to support the urgency and significant why this study is crucial. 3) Change the way of writing as: -Before: To examine the effect of globalization on the three sectors of the Nigerian economy (agriculture, manufacturing and international trade), and following Ekpo, Ndebbio, Akpakpan and Nyong (2003), we formulate the following double-log models: -After: this research adopted double log model as per testes/promoted by because it is a well- known methods to analysed the significant effect of globalization towards agriculture, manufacturing and international trade from the Nigerian perspective.	1) This is a very useful comment. The empirical literature has been re-arranged in line with this suggestion (as per line 95-155). 2) A new section (section 3) has been added to the paper to address this useful observation. 3) This has been modified to read: Drawing from the macroeconomic models of the Nigerian economy as put forward by Ekpo, Ndebbio, Akpakpan and Nyong (2003), the following double-log models double log models are formulated to examine the effect of globalization towards agriculture, manufacturing and international trade from the Nigerian perspective:
Optional/General comments	1) Its significant to justify each of the coefficients used in this equation? If yes, try to simplify it. 2) Please consider to change the words WE to others words as such this research, this study...etc. 3) This research is meaningful for the practical implication. Please mention at least in one paragraph the practical implication of this research as such for the	1) Yes, the justification allows us to state the economic a priori expectations concerning their signs and magnitude. 2) Done 3) The implications of the findings are discussed as the results were analysed in the paper. Main issues for policy are captured in section 5.
