PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
<u>Compulsory</u> REVISION comments	1. It is generally awkward to have two headings without text separating them (as in headings 2.2 and 2.1.1). 2. In section 2.2.2, for the bullet-point items, either use all nouns or all gerunds but do not use both. 3. Is the acronym FIS really Fuzzy Expert System? Do you mean FES? 4. Be consistent with figures and tables. You can't call something a figure AND a table. Also, please be consistent with where you place the name "figure" or "table;" in some places, you have it after the figure/table and in some places you have it before.	1. New sentence added after section 2.2 2. Description changed based on nouns 3. Acronym changed to FES 4. The allocation of tables and figures was constraint by the format of the paper to put them in relevant pages to avoid one table overlap between 2 pages. This can be changed if journal format requires different formating
