SDI Review Form 1.6

PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
<u>Compulsory</u> REVISION comments		
<u>Minor</u> REVISION comments	• Sampling procedure is not clear. • Research methodology is based on model and I think it is a Meta analysis in nature, but it is also empirical so the research design is a mixed model. I think it better to acknowledge the mixed model concept here in this segment.	1. The sampling procedure was thoroughly examined under sub-section 3.1 (see page 4 and 5). 2. This study is purely empirical and theoretical in nature.
<u>Optional/General</u> comments
