SDI Review Form 1.6

PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
<u>Compulsory</u> REVISION comments	Need to review and integrate the nature and structure of ownership and products 'conventional' and 'microfinance' banks deal with Vis-à-vis other banking institutions in the financial system such as Mortgage Banks, Bank of Agriculture etc. The thrust of the arguments advanced by the author could well apply to other specialized banks. Nomenclature coupled with scale operations need not to divert our attention on objects especially where Institutions operate on both sides of the market: Supply and demand.	
<u>Minor</u> REVISION comments	Perhaps brief review of the past efforts in Rural Branch banking by Commercial banks, FEAP, Community Banks could attest to the poverty in nomenclature in such interventions in Nigeria in the past.	
<u>Optional/General</u> comments	The paper is well written and have cogent arguments but the history and proportion of social content of a program may only suggest a preferred focus in credit delivery.
