PART 1: Review Comments

	Reviewer's comment	Author's comment <i>(if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)</i>
<u>Compulsory</u> REVISION comments	A very interesting study, which provide some new insight over how the WTO membership has effected Vietnams participation in international trade. The case of Vietnam can probably also be used to generalize on other developing country members of the WTO.	
<u>Minor</u> REVISION comments		
<u>Optional/General</u> comments	It could be interesting to know how much of the Vietnams trade is under GSP-regime, FTA regimes and the WTO's general trade system.
