

SDI FINAL EVALUATION FORM 1.1

PART 1:

Journal Name:	British Journal of Mathematics & Computer Science
Manuscript Number:	MS: 2013_BJMCS_3049
Title of the Manuscript:	Bounds for the Convex Combination of the First Seiffert and Logarithmic Means in Terms of Generalized Heronian Mean.

PART 2:

FINAL EVALUATOR'S comments on revised paper (if any)	Authors' response to final evaluator's comments
I recommend to publish your paper. However, a number of minor details merit some care. 1) You have provided enough evidence of the relevance of P, H, and L means by including a number of references. However, it would be excellent that you write some sentence explaining their usefulness. 2) I recommend that some native English speaker revises the final text. Some incorrect sentences remain there. For example: - p.101 (second), after formula (1.5): “Recently, [...] means has been [...]” must be “Recently, [...] means have been [...]”. - P. 101 (second), line 21: “In [...], it was proved” must be replaced by: “In [...], the following inequalities were proved”. and so on	I agree. I wrote some sentences. I agree. I made the corrections.
