**PART 1: Review Comments**

|                                            | <b>Reviewer's comment</b>                                                                                                                                                                                              | <b>Author's comment</b> <i>(if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)</i> |
|--------------------------------------------|------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|---------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| <b><u>Compulsory</u></b> REVISION comments |                                                                                                                                                                                                                        |                                                                                                                                                                                             |
| <b><u>Minor</u></b> REVISION comments      | In the abstract, "Sub graphs" should be "subgraphs";<br>Before the "The main question..." there should be a space.<br>I suggest that authors should check this manuscript carefully, since I can not list all of them. | Corrected                                                                                                                                                                                   |
| <b><u>Optional/General</u></b> comments    | The result is interesting and the proof seems correct. I recommend its publication after minor revision.                                                                                                               |                                                                                                                                                                                             |
