

SDI Review Form 1.6

Journal Name:	British Journal of Mathematics & Computer Science
Manuscript Number:	2013_BJMCS_6181
Title of the Manuscript:	Weierstrass's Global Division Theorem and Continuity of Linear Operators in H -spaces
Type of the Article	Research Paper

General guideline for Peer Review process:

This journal's peer review policy states that **NO** manuscript should be rejected only on the basis of '**lack of Novelty**', provided the manuscript is scientifically robust and technically sound.

SDI Review Form 1.6

PART 1: Review Comments

	Reviewer's comment	Author's comment <i>(if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)</i>
<u>Compulsory</u> REVISION comments	In line 7 there was a typo it is written "absrtact". The correct is "ABSTRACT".	It will be realized
<u>Minor</u> REVISION comments	Although cite important text on the subject, the paper uses few references in general. It is mentioned only one other paper. I think it would be important to mention even more papers to better understand the state of the art theme. There are articles related to the topic of research in the British Journal of Mathematics & Computer Science / SCI. I believe that the authors could also cite these articles as this is very important for the magazine.	It will be realized
<u>Optional/General</u> comments	The paper is well structured in general. But I think it would be interesting to add other authors something more especially in the "Conclusion". This part is the conclusion of this study and it is important to highlight the work oo. No corrections to the text in the paper, is to those cited.	It will be realized
