

SDI Review Form 1.6

Journal Name:	<u>British Journal of Mathematics & Computer Science</u>
Manuscript Number:	2013_BJMCS_6354
Title of the Manuscript:	Existence and Structure of Entire Large Positive Radial Solutions for A Class of Quasilinear Elliptic system1
Type of the Article	Research Paper

General guideline for Peer Review process:

This journal's peer review policy states that **NO** manuscript should be rejected only on the basis of '**lack of Novelty**', provided the manuscript is scientifically robust and technically sound.

To know the complete guideline for Peer Review process, reviewers are requested to visit this link:

(<http://www.sciencedomain.org/page.php?id=sdi-general-editorial-policy#Peer-Review-Guideline>)

SDI Review Form 1.6

PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
<u>Compulsory</u> REVISION comments	No	
<u>Minor</u> REVISION comments	In page 2, "amongst the literature,..." is not correct. In page 3, above (8), "zuodong Yang[8] extend..." is not correct; In page 4, hypothesis H2, the word "satisfy" is not correct; In page 5, Theorem 1, the word "holds" is not correct; In page 6, line 7, "Preliminary" is not correct. In (18) and (19) "O" shall be "0"; In page 8, Lemma 2.4, "holds" is not correct; In page 9, above (28), "lemma 2.1" shall be "Lemma 2.1"; In page 10, Corollary 2.5, "holds" is not correct; under (32), "functions" shall be "function", "satisfy" shall be "satisfies"; In page 14, In the Proof of Theorem 3, author say Lemma 7, but we can not find Lemma 7 in this paper, please check. In page 14, "c" in (53) shall be "c_0"; In References, [1],[5], [11] and [17] shall be revised; In addition, there are a great deal of error on the punctuations in every page. Here we do not point out. Please check.	My paper have been modified according to Review. Please see the correct the manuscript.
<u>Optional/General</u> comments	This paper considers the existence of the entire positive radial solutions of two quasilinear elliptic systems. This topic is interesting and shall be investigated timely. The obtained results are new and complement of some previously known ones,	

SDI Review Form 1.6

	but there are some grammatical , writting and notation errors that will impede the readability and clarity of the paper. This paper can be accepted for publication in this journal after some revision and improvement.
