PART 1: Review Comments

	Reviewer's comment 1. The purpose of this paper is to study the existence problem of solutions for extended vector equilibrium problem in the setting of Hausdorff topological vector spaces and reflexive Banach spaces. Under suitable conditions some existence theorems are proved. In the paper, the author also give some examples 2. The manuscript is well written and the results presented in the paper are right and interesting which extend and improve some recent results. 3. Based on the above consideration, I suggest to publish this paper in your Journal " British Journal of Mathematics & Computer Science "	Author's comment <i>(if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)</i>
