PART 2: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
<u>Compulsory</u> REVISION comments	(1) This is a very important study and should not be limited to just a group of schools which is likely to be <u>not</u> a representative of the typical Schools in Ghana. The author(s) should widen the sample space by including 'public' schools. (2) The second and third recommendations do not seem to be based on the analysis of this paper. The author(s) should justify this.	
<u>Minor</u> REVISION comments		
<u>Optional/General</u> comments	The paper is quite good. It is a scientific monitoring/validation of governmental policies.
