

SDI Review Form 1.6

PART 1:

Journal Name:	<u>British Journal of Mathematics & Computer Science</u>
Manuscript Number:	2013_BJMCS_5602
Title of the Manuscript:	Generating 3rd Level Association Rules Using Fast Apriori Implementation
Type of the Article	Research Paper

General guideline for Peer Review process is available in this link:
(<http://www.sciencedomain.org/page.php?id=sdi-general-editorial-policy#Peer-Review-Guideline>)

- This form has total 7 parts. Kindly note that you should use all the parts of this review form.

SDI Review Form 1.6

PART 2: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
<u>Compulsory</u> REVISION comments	1. Please demonstrate that your algorithm is more efficient with two ways (Original Apriori algorithm and your Fast Apriori Implementation). 2. Please identify the quantity of transaction database in this paper. 3. In Fig. 4., please give the explanation about the evaluation of confidence value and occurrence value . 4. Sufficient details of your Fast Apriori Implementation should be provided so that another researcher is able to reproduce the experiments described. 5. Conclusions should be based on the data. In line 248, "It can be further enhanced to level-n association rules and so on." Please give some proof.	
<u>Minor</u> REVISION comments		
<u>Optional/General</u> comments
