PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
<u>Compulsory</u> REVISION comments	The paper has original results about construction of orthogonal double covers of complete bipartite graphs $K_{n,n}$ by FF-cycles and FF-paths. Also they suggest some conjectures related these results. I think it is publishable. It has some worth.	
<u>Minor</u> REVISION comments	But the writing is not well up to this journal quality. They should be careful. The manuscript must be written carefully again.	Thanks for your interesting , I correct the errors in the manuscript.
