

SDI Review Form 1.6

Journal Name:	British Journal of Mathematics & Computer Science
Manuscript Number:	2014_BJMCS_11556
Title of the Manuscript:	LIE'S THEOREMS ON SOLUBLE LEIBNIZ ALGEBRAS
Type of the Article	Original Research Article

General guideline for Peer Review process:

This journal's peer review policy states that **NO** manuscript should be rejected only on the basis of '**lack of Novelty**', provided the manuscript is scientifically robust and technically sound.

To know the complete guideline for Peer Review process, reviewers are requested to visit this link:

SDI Review Form 1.6

PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
<u>Compulsory</u> REVISION comments		
<u>Minor</u> REVISION comments	The paper results are about Solvable Leibniz algebras which are extension of Lie algebras. They gave some basic results for solvable Leibniz algebras and their vector space representations. Actually these are generalizations of results for solvable Lie algebras. The presentation of the paper is good but the writing is not good. There are some typos and punctuations are missing. Another problem is: What is the meaning of "spaces" in the term of "pseudo weight spaces". The authors should clarify the meanings. "Spaces" mean additive or some else... The paper is publishable in your qualitative journal.	Thank you to the reviewer to have drawn our attention on the notion of pseudo-space. We hope that the remark3,1 will give him satisfaction. We change Remark3.1 and give more precisions on the notion of pseudo-weight space. We remain opened to any suggestions with the aim of improving our paper.
<u>Optional/General</u> comments
