

SDI Review Form 1.6

Journal Name:	British Journal of Mathematics & Computer Science
Manuscript Number:	2014_BJMCS_11601
Title of the Manuscript:	Automatic Check Digits Recognition for Arabic Using Multi-Scale Features, HMM and SVM Classifiers
Type of the Article	Original Research Article

General guideline for Peer Review process:

This journal's peer review policy states that **NO** manuscript should be rejected only on the basis of '**lack of Novelty**', provided the manuscript is scientifically robust and technically sound.

SDI Review Form 1.6

PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
<u>Compulsory</u> REVISION comments	This paper proposed two classification system for identify andwritten Arabic isolated digits ‘٠’ (0) to ‘٩’ (9). SVM and HMM with different features is applied. The algorithm is reasonable. And recognition results are compared to other published work However, the comparisons should be carried out between the recent method. So other more experiment is expected.	The authors would like to thank the referees for their constructive comments, which helped us to improve the manuscript. Two more comparisons with recent papers have been added.
<u>Minor</u> REVISION comments	New reference should be added.	Two more comparisons with recent papers have been added.
<u>Optional/General</u> comments
