

SDI Review Form 1.6

Journal Name:	British Journal of Mathematics & Computer Science
Manuscript Number:	2014_BJMCS_11628
Title of the Manuscript:	Positive solutions of singular periodic boundary value problems for second order impulsive differential equations
Type of the Article	Original Research Article

General guideline for Peer Review process:

This journal's peer review policy states that **NO** manuscript should be rejected only on the basis of '**lack of Novelty**', provided the manuscript is scientifically robust and technically sound.

To know the complete guideline for Peer Review process, reviewers are requested to visit this link:

SDI Review Form 1.6

PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
<u>Compulsory</u> REVISION comments		
<u>Minor</u> REVISION comments	In this paper, by using fixed point theorem in cones, the existence of positive solutions for singular second-order periodic boundary value problem with impulse effects is established. The result is interesting, the method is also correct, but many typos and grammar errors should be revised carefully. After address these problems, I would like to recommend this paper to be accepted.	Thank you. I noticed that these errors, and will revise the paper again.
<u>Optional/General</u> comments
