

SDI Review Form 1.6

Journal Name:	British Journal of Mathematics & Computer Science
Manuscript Number:	2014_BJMCS_13362
Title of the Manuscript:	HYBRID OF THE NEW CONJUGATE GRADIENT METHOD AND GALERKIN THEORY FOR OPTIMIZING BEAM DEFLECTION UNDER UNIFORMLY DISTRIBUTED LOAD
Type of the Article	Original Research Article

General guideline for Peer Review process:

This journal's peer review policy states that **NO** manuscript should be rejected only on the basis of '**lack of Novelty**', provided the manuscript is scientifically robust and technically sound.

SDI Review Form 1.6

PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
<u>Compulsory</u> REVISION comments	Beginning of Part2 should be more clear and in this part instead of square brackets, normal brackets should be used. The title of third section should be changed or modified. Numerical examples are not clear and there is not any comparison between the new "Conjugate Gradient Method and Galerkin theory" and "Conjugate Gradient Method and Galerkin theory" It is better to check the relative error instead of absolute error. Where is the problem taken, it has not got any references.	We agreed with the reviewer. We have reviewed the paper in line with the reviewers' comments. Thanks.
<u>Minor</u> REVISION comments		
<u>Optional/General</u> comments
