

SDI Review Form 1.6

Journal Name:	British Journal of Mathematics & Computer Science
Manuscript Number:	2014_BJMCS_13484
Title of the Manuscript:	An Application of Continuous –Time Delay Differential Equations in Price Dynamics of Maize in Ghana
Type of the Article	Research Article

General guideline for Peer Review process:

This journal's peer review policy states that **NO** manuscript should be rejected only on the basis of '**lack of Novelty**', provided the manuscript is scientifically robust and technically sound.

To know the complete guideline for Peer Review process, reviewers are requested to visit this link:

(<http://www.sciencedomain.org/page.php?id=sdi-general-editorial-policy#Peer-Review-Guideline>)

PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Compulsory REVISION comments	No Compulsory Revision, manuscript is well organized, very well written with good references	
Minor REVISION comments	There are some spaces that author (s) may observe, for instance in lines 142 and 234	I have corrected and highlighted with yellow colour
Optional/General comments	In my opinion the author(s) should get better results if they consider a third degree polynomial in equation (3), oscillations would be more stressed. They could implement the corresponding simulations in this case.	This would be considered in the next paper when we incorporate buffer stock into the model to check price stability.
