

SDI Review Form 1.6

Journal Name:	British Journal of Mathematics & Computer Science
Manuscript Number:	2013_BJMCS_7515
Title of the Manuscript:	Optimal Design and Control for Minimizing the Dynamic Response of an Anisotropic Plate with Variable Thickness
Type of the Article	Full length article

General guideline for Peer Review process:

This journal's peer review policy states that **NO** manuscript should be rejected only on the basis of '**lack of Novelty**', provided the manuscript is scientifically robust and technically sound.

SDI Review Form 1.6

PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
<u>Compulsory</u> REVISION comments	-	
<u>Minor</u> REVISION comments	-	
<u>Optional/General</u> comments	Dear Editor, The paper deals with the topic of the optimal design and control of the dynamic response of a laminated rectangular plate with variable thickness. Following a balanced summary, the paper presents a good introduction. The remaining sections are written with clarity. The paper is well organized in terms of numerical implementation, worked results, as well as for the structure of the manuscript. The reference list is adequate. The investigation appears to be rigorous. Personally, I consider the paper suitable for publication in British Journal of Mathematics & Computer Science.	OK
