SDI Review Form 1.6

PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Compulsory REVISION comments	The Authors proposes a new four parameter generalized exponential distribution. For this distribution the Authors calculate the cumulative distribution function, the survival function, the hazard function, the moment generating function, the median, the 100p-percentile point and the mode of distribution. The paper is clearly written and appears scientifically sound. I recommend publication of the paper in its present form	I Agree with the reviewer.
