

SDI Review Form 1.6

Journal Name:	British Journal of Mathematics & Computer Science
Manuscript Number:	2013_BJMCS_8191
Title of the Manuscript:	On Extended Generalized Exponential Distribution
Type of the Article	

General guideline for Peer Review process:

This journal's peer review policy states that **NO** manuscript should be rejected only on the basis of '**lack of Novelty**', provided the manuscript is scientifically robust and technically sound.

To know the complete guideline for Peer Review process, reviewers are requested to visit this link:

SDI Review Form 1.6

PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
<u>Compulsory</u> REVISION comments	1- It should be considered that From Eq. (2.2), it is not possible to obtain The Eq. (2.1), So the Equations (4-1) , (5-1), ... , should be changed. 2. In table (3.2) in row 1 the $\text{Var}(X) = E(x^2) - (E(X))^2$ should be positive, (while it is negative. This is incorrect. It must be positive)	1. Assuming that $\mu=0$ in equation (2.1), then, we can easily obtain equation (2.1) from equation (2.2) by differentiating equation (2.2). 2. I mistakenly typed 1.8402 instead of 0.8402 in row 2 column 2 of table 3.2 and it has been corrected.
	1- On page (2) line (21) the references Kundu differ from those are in References. 2- On page 5 line 8 the tables (3-1) till (3-6) should Be considered.	1 . I have corrected this. 3. I have made the needed changes.
<u>Optional/General</u> comments	-----
